

NAVIS PICTURES presents
St. Bernadette of Lourdes

A cast of 166 children star in one unforgettable movie!

This unique video tells the time-honoured story of the miraculous appearances of Our Blessed Lady to little Bemadette Soubirous in an entirely new way but faithful to the events as recorded by reliable witnesses.

Jim Morlino, all American Catholic father of six, brought his experience of thirty years as an actor, director, producer and screenwriter to galvanise fifty families and their 166 children in this great tribute to Our Holy Mother and her little Saint. All six of Mr Morlino's children are included in the cast and it *is* very much a labour of love. shot in some breathtaking locations in Up-State New York. Mr Morlino managed to find places redolent of the French Pyrenees and traditional holy sites were chosen wherever possible. The performances he managed to induce from his totally inexperienced young actors are remarkable.

Interviewed by the *National Catholic Register*, Mr Morlino commented: "The children were blessed with Lourdes water on the first day of the shooting and began every day with the-Angelus." He said at the end of the filming the "children had a deeper understanding of Our Lady's role in human history and of how Our Lord allows her to bring the world timely messages." _

- So what drove Jim Morlino to finance this project with his own money and take a step into the unknown? He put it this way:

"The whole endeavour began within our own family and with our desire, which is shared by many parents to protect the innocence of our children-and foster in them love and appreciation of beauty, especially mindful of the Author of Being."

Let your children see this film. They will never forget it and neither will you. -
